

# American Academy of Pediatrics Developmental Surveillance and Screening ECHO

Join us for a 10-session ECHO series designed to strengthen your ability to support children's healthy development. Participants will build skills, knowledge, and confidence in the early identification of developmental delays and disabilities, while improving developmental surveillance and screening practices. This series highlights and promotes the **CDC's *Learn the Signs. Act Early.*** resources. This 10 session ECHO will be held on **Tuesdays bi-weekly** at **12pm CT** running from **April 21st through August 25th.**

**Tuesdays  
Bi-weekly**

**12 PM - 1 PM  
Central Time**

## Intended Audience:

For pediatric professionals and care teams in Federally Qualified Health Centers (FQHC)
